

BE OUR NEXT

FULL-STACK DEVELOPER

ABOUT THE COMPANY

We are a rapidly growing fintech company specialized in consumer finance, which will enable you to grow both professionally and personally. If you like to have a job as Full-Stack Developer with cool co-workers in a friendly and open-minded environment, a salary based on your qualifications and experiences, located in a beautiful office in the middle of Copenhagen at Vester Voldgade 83 with a great lunch - Come start your journey with us!

THE JOB

- Development, maintenance, and optimization of software platforms in PHP & JavaScript (vue.js)
- Contribute to optimizing processes and tools for frontend and rest of the IT team.
- Sparring and code review of code from co-workers.
- Identification and report of risk or potential issues to nearest Manager.

YOUR QUALIFICATIONS

- 3-5+ years of experience with Full-Stack development
- Strong analytical and problem-solving skills
- Strong knowledge of PHP framework Symfony
- Experience with user authentication and authorization between multiple systems, servers, and environments.
- Strong knowledge of JavaScript (vue.js)
- Experience with CI/CD workflows
- Experience with both designing and consuming RESTful APIs

PERSONAL

- Fast learner with strong attention to detail.
- Excellent communication skills.
- Highly motivated and driven.
- Fluent in English.
- Take ownership

HOW TO APPLY?

Simply send your application directly to ms@lendomatic.com and write "Full-Stack Developer" in the subject field. If you have any further questions about the position, please contact CTO Martin Skytte on +45 3133 3901

Please send your application as soon as possible, as we will be doing interviews on an ongoing basis.

As required by GDPR regulation all personal data will be deleted three months after the process has been completed unless you have been employed.
